# AFRAID TO SELL

Professional Element in Wali Street Sees Danger Just at Present.

PRICES STILL ADVANCING

GREATEST AMOUNT OF INTER-EST IN HARRIMAN STOCKS.

New York, May 13 .- There was no mistaking the strength in today's stock market and the speculation showed animation and considerable variety. The principal operations were attributed still to the larger financial powers, and the professional element was timid about venture.

St. L. & S. F. this belief in support by such formidable factors. The purpose to foster the demand for new capital issues was belief the demand for new capital issues was belief the demand for new capital issues was belief to the demand mand for new capital issues was believed to prompt the measures to control the market, and as the Harriman Pacifics are credited with the largest interest at present in this purpose, owing to the im-mediate new issues, the sustaining operadons in the stock market were commonly believed to emanate from sources in al-liance with those capitals.

The meeting of the directors of the Union Pacific and the Southern Pacific resulted in the declaring of the regular dividends on both stocks and that action helped the stocks, but they were more affected by rumors regarding the coming financing, on which no announcement was made. The rise in Southern Pacific preferred indicated the credence that was given to a report that it was in contem-plation to waive the company's privilege to redeem the 7 per cent preferred stock at 115. The existence of this privilege has had the effect of holding the price of stock to close to that level. The motive for this supposed intention is said to be the desire to market the balance of authorized preferred stock in the treasury of the capital

of the capital.

The rumor of intended extra distribution on Northern Pacific stock was revived. Both the Hill stocks and St. Paul are benefited by the large sales of new stock effected before the financial depression set in. Suppositions as to the benefit to the companies of these funds in hand available for expenditures during the pe-riod of depression and low prices of materials play a part in the strength of the stocks. The prevailing temper of the speculation was clear from the avidity with which hints of favorable events were seized upon to rush up prices while events seeming to bear unfavorably on the out-look for values were ignored. The ensagements of gold for export, while large, were entirely expected on account of the abundance of money here, the decline in the foreign trade balance in our favor and some remarketings here of foreign holdings of American security

Geposits.

Sales were reported of 15,000 bags, including May at 6.20; July, 6.25; September, 6.25; October, 6.20; December, 6.20; spot, steady; Rio No. 7, 6%; Santos No. 4, 8%; mild, quiet; Cordova. 9%@12%.

Sugar—Raw, steady; fair refining. 3.86; centrifugal .96-test, 4.36; molasses sugar, 3.61; refined, quiet. Quality Wall Papers.

That describes our line; quality is first with us W. A. DUVALL, Both phones. 110 W. 2nd So.

GRAIN AND PROVISIONS. Chicago, May 13.—The wheat market made a brief show of firmness at the start owing to a sharp buige in the price of May corn, but heavy sales by prominent longs soon caused a decline in all deliveries. The selling was largely due to the excellent weather now prevailing over day and can get you anything you want out of any of them.
